1. Claims 1-20 are pending.
2. Claims 8-20 stand withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to non-elected inventions, for reasons set forth in Paper No. 5.
3. Claims 1-7 stand rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for inhibiting T cell activation in vivo to the agonist peptide, does not reasonably provide enablement for inhibiting all T cell activation. The specification does not enable any person skilled in the art to which it pertains, or with which it is most clearly connected, to use the invention commensurate in scope with these claims, for reasons set forth in the Office Action mailed 1-13-2003.

Applicant's arguments filed 7-1-2003 have been fully considered but are not found persuasive.

Applicant argues their amendment obviates the rejection.

However, the amendment is drawn to inhibiting the T cell response to antagonist peptides, when the antagonist fusion constructs inhibit the in vivo T cell response to the naturally occurring agonist not antagonist.

It is noted Applicant's current amendment has obviated the 35 USC 102(a) over Liu et al., however if applicant was to amend their claims to inhibit T cell activation against the agonist peptide, the Liu et al., reference would be reapplied.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

The non-statutory double patenting rejection, whether of the obviousness-type or non-obviousness-type, is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent. *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); and *In re Goodman*, 29 USPQ2d 2010 (Fed. Cir. 1993).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(b) and © may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.78(d).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-7 stand provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 4, 6, 9, 11, 24, 26, 27, 29, 66-70 and 72-73 of copending application Serial No. 08/779,767. Although the conflicting claims are not identical, they are not patentably distinct from each other because the invention claimed in claims 4, 6, 9, 11, 24, 26, 27, 29, 66-70 and 72-73 of copending application Serial No. 08/779,767 are composition claims claiming overlapping subject matter of the invention claimed, product claims, in claims 1-7, of the instant application.

This is a *provisional* obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

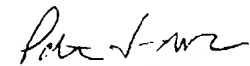

Applicant has not traversed this rejection so it is maintained.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
